Information about payment with credit card

For your safety, our payment system is connected to the 3D Secure system for ensuring the security of payments made through the internet. Your card needs to be connected to Verified by Visa or Mastercard SecureCode. Your bank can inform you if your card is connected, and if not already, how it can be connected.

If you receive an error message when paying with your card, please check with your bank to see if they have a block on overseas payments, a block on internet payments, and/or a limit on the amount that can be charged in one day. These are common reasons why a payment initially does not go through.

VAT 25%

According to Swedish and EU legislation, 25% VAT will be added to all registration fees.

Exception: Swedish participants from government public sector organisations ("statliga myndigheter" (e.g., universities, governmental agencies): No VAT will be added. In this case, you must choose **Invoice (Swedish billing address only)** as the payment mode and provide your VAT number.

* According to the EU legislation and regulation for conferences and events (C-647/17, EU:C:2019:195, of 13 March 2019 and Article 53 of Council Directive 2006/112/EC of 28 November 2006) VAT is paid in the country where services are rendered, e.g. the country in which the conference takes place.
