

Nordic Spinal Deformities Society 26-26 August 2017 Stockholm/Saltsjöbaden, Sweden.

Dear Industrial Partner of the NSDS 2017 Meeting,

We welcome you to the Nordic Spinal Deformity Meeting 2017 which will be held in the Stockholm area, at Vår Gård, Saltsjöbaden, which is a by Karolinska Institutet procured venue. The meeting venue is easily accessed from the airport, harbor and railway stations in Stockholm. Our congress organiser is “Academic Conferences”, Karolinska Institutet’s own congress bureau.

This year we have put extra effort to make the NSDS meeting both professionally top level and interesting to all medical professionals interested in spinal deformity. Among the currently confirmed lecturers are Professor Kenneth Cheung from the University of Hong Kong, Mr Athanasios Tsirikos from Edinburgh’s Royal Hospital for Sick Children, Great Britain, Professor Stefano Negrini from the University of Brescia, Italy and Professor Göran Hägglund from Lund University, Sweden. Besides invited lecturers, we especially invite young researchers to give free paper presentations. A memorial lecture will also take place. We expect more than 100 delegates to come, consisting of physicians, nurses, orthotists, physiotherapists and other health care personnel as well as delegates from the industry with one common interest; the treatment of individuals with spinal deformity.

We invite you to take part in our commercial exhibition area at our meeting. The exhibition will be open on Thursday and Friday, 24-25 August. The exhibition area is located just outside the lecture hall. During the breaks, coffee and lunch will be served in the exhibition area. We also provide a chance to advertise in our abstract book.

The different sponsor options are listed on our “Exhibition registration form” below.

We welcome you all to Stockholm and Saltsjöbaden, Sweden, and look forward to a memorable annual meeting!

Paul Gerdhem
Congress President

Hans Möller
Chairman of the
Scientific Committee

Peter Endler
Responsible for
the Exhibition

The homepage for the meeting (still in progress) is located at:
